VALEN GEL 12V55Ah

12VG55

- The Valen Gel range features a rechargeable, deep cycle, Valve Regulated Lead Acid (VRLA) battery. Gel technology varies from its AGM counterpart because the electrolyte is suspended in Thixotropic Silica Gel, unlike the AGM batteries where the electrolyte is suspended in the Absorbent Glass Mat.
- The Valen Gel battery range has met and exceeded all market expectations over the years and continues to prove its excellence thanks to its ability to resist deep discharges and to recover after heavy draining.
- Advanced Thixotropic Silica Gelled Electrolyte with Genuine Gel separators and quality lead plates allow the Valen GEL battery range to offer a 10-year design life
- Maintanence-Free design
- FAA and IATA Approved and is safe for air transportation
